

Stand-by Generator Sales and Service

Generators provide electric power through natural gas, LP, or diesel fuel when utility power is not available. They are ideal for protection against rolling blackouts, unexpected power failures, and planned outages.

3-D Service's 24/7 service and repair offerings help you meet your need for dependable power. Our factory-trained service personnel will help protect your investment and give you peace of mind through an on-site generator maintenance agreement customized to your specific needs and schedule.

A custom maintenance agreement will reduce energy costs by extending equipment life and preventing breakdowns on everything from the engine to the automatic transfer switch. Have assurance in your maintenance agreement and the confidence in knowing 3-D Service carries genuine parts and equipment from both Baldor and Ingersoll Rand.

Fast, Cost Effective Solutions

We're Ready to Help You Avoid Costly Downtime

3-D Service specializes in solving your equipment problems - on time, to specifications and within budget.

Stand-by Generators

Need Other Equipment or Services? We can handle all of your rotating equipment and power system needs. For quality service at your site or in our shop call **800.837.1614** for 3-D Service.

You can't take chances with your critical electric loads. Yet today, there's more to worry about than ever:

- Storms
- Seasonal power shortages
- Utility deregulation or privatization

With a stand-by generator from 3-D Service, there are no worries. For large and small businesses alike, we offer generators in a range of sizes and power capacity from 8 kW through 2000 kW to keep your business up and running.

An on-site electric power system will keep your business operating and your profits flowing – no matter what happens to utility power.

- Prevent disruption of a critical process
- Avoid costly production downtime
- Keep a data center in operation
- Prevent loss of refrigerated goods
- Sustain critical communications
- Continue serving customers without interruption
- Keep your home or business fully functional

*A generator from 3-D Service Provides
Three Dimensions of Protection:*

-Your Business

-Your Power

-Your Investment
